## **Enemærke & Petersen awarded large-scale refurbishment project**

Enclosed please find MT Højgaard A/S's release of 22 April 2015 regarding Glostrup Boligselskab has awarded Enemærke & Petersen the contract for the first phase of an extensive refurbishment project in the Stadionkvarteret council housing area. The first phase is a contract for DKK 200 million. The total project has a value of DKK 785 million.

This announcement does not give rise to any changes in the previously published expectations of the economic development in the MT Højgaard group.

Højgaard Holding A/S holds an ownership interest of 54 % in MT Højgaard.

The projections concerning future financial performance are subject to uncertainties and risks that may result in a development that deviates substantially from what is expected.

Best regards,  
Højgaard Holding A/S

Ditlev Fløistrup  
CEO

## Enemærke & Petersen awarded large-scale refurbishment project

**Glostrup Boligselskab has awarded Enemærke & Petersen the contract for the first phase of an extensive refurbishment project in the Stadionkvarteret council housing area. The project has a total value of DKK 785 million, of which the first phase is a contract for DKK 200 million.**

The refurbishment project for the 1,235 Stadionkvarteret housing units in the Copenhagen suburb of Glostrup is meant to future-proof the housing area. Glostrup Boligselskab, the housing association managing the area, have selected Enemærke & Petersen, a subsidiary in the MT Højgaard Group, for the refurbishment project, which will involve replacing roofs, windows and technical installations in all housing units, installing new ventilation systems, enlarging balconies and landscaping small garden areas adjacent to the ground floor apartments.

In order to make the area more attractive to families with children, some of the apartments will be combined during the refurbishment project to make bigger units, and accessibility inside the units will be improved to provide better facilities for senior citizens and disabled persons. Work on the project begins in June 2015 and is scheduled for completion by the end of 2018.

The criteria used to select the contractor were price, process and staffing, and quality. Enemærke & Petersen is already established as one of the leading contractors in the field of refurbishing council housing, and among other projects the contractor has recently completed an extensive refurbishment of 1,738 housing units in Vapnagaard in Elsinore. Enemærke & Petersen is especially known for efficient refurbishment processes and their considerate way of handling the residents.

- With this task we affirm our position in the Danish refurbishment market. We predict that this market will grow further in the coming years, and with our experience in making the refurbishment process a good experience for the residents, we feel well equipped to maintain our position, said Henrik Mielke, CEO, Enemærke & Petersen.

The project has a total value of DKK 785 million and is to be carried out in six stages. Stages 2-6 are included in the contract as options. Good cooperation on the organization and execution of the first stage of the project, where the contract has a value of approximately DKK 200 million, allow for a larger part of the project to be carried out by Enemærke & Petersen. The new contract is expected to have a positive effect on the MT Højgaard Group's consolidated revenue and earnings during the term of the project, but it will not affect the company's current financial expectations.
